Good morning, last night, the Gateway Regional Board of Education voted to approve Gateway's reopening plan. The current plan is to bring the students back in two phases. The first phase will be for 7th Graders to begin hybrid classes on October 5th. Under the current plan, 7th graders in Cohort A will report to school on October 5th and 6th. 7th graders in Cohort B will report for in-person education on October 8th and 9th. All other students in grades 8-12 will report virtually. During the week of October 5th, we will follow the virtual schedule that we have used since the first day of school.

On October 13th, all remaining students in grades 8-12 will begin in-person education. On October 13th, all Cohort A students in grades 7-12 will report to in-person school and on October 15, all Cohort B Students in grades 7-12 will report to in-person school. Students will participate in in-school instruction OR live, synchronous instruction if it is their cohort day. If it is NOT a cohort day, students will log-in to check in with teachers at the beginning of their class period for attendance and instructions and then work on asynchronous learning. On Wednesdays, students will follow a 1-8 bell schedule. On the Gateway website, you'll find a short video explaining the schedule and a copy of the hybrid schedule.

This means every student should be logging into every class, every day. Students will be required to fill out their wellness form on PowerSchool before entering the building. No Students will be allowed in the building before 7:30. We appreciate your support as we navigate through these times and work to support our students.
